Conolon Fiberglas Rods

Experts have declared Conolon fiberglas to be the most perfect fishing rod ever discovered . . . combining aircraft lightness and strength with a new kind of "Live Action" that increases the thrill of fishing. Millions of glass fibers, welded into a perfectly tapered hollow-center tube, make a rod that won't warp, rust, rot or split and is unaffected by heat, cold or moisture. Tests prove that Conolon rods have high flexibility or bending strength at temperatures from 60 degrees below zero to 160 degrees above.

Get more enjoyment out of fishing . . . use a Conolon Live Fiber rod. The ORIGINAL tubular fiberglas fishing rod.

Standard Warranty

Conolon Live Fiber fishing rods are guaranteed for a year against defects in materials and workmanship. Conolon Live Fiber rods also carry a liberal service policy in case of accidental damage within five years from date of purchase. Damaged rods should be returned direct to the factory, where they will be repaired or replaced for a nominal service charge.

Wild Life Foods *insure good hunting*

ORDER NOW . . . PLANT THIS SPRING!

Duck Foods planted this Spring will be given ample time to grow, producing in the Fall an abundance of seeds, tubers, roots and tender crisp foliage, **ATTRACTING AND HOLDING** ducks for your Sport. **REMEMBER . . . ducks MUST EAT.** More food means more ducks over a longer season. Many of these same plants will furnish food and cover for Fish, Muskrats and other wildlife.

Check your supply of fishing equipment, make ready for that opening day this Spring. Do you have that new Spinning Rod and Reel? If not, order from us today and save money. (See the inside of this folder). When Spin Casting there are no amateur's, every cast is that of an Expert.

INSURE YOUR LIFE . . . By Carrying One of These RES-Q-PAK Self-Inflating LIFE PRESERVERS

While Res-Q-Pak is no larger than a pack of cigarettes and only weighs 4 ounces, it is not a toy. It is a Laboratory Tested and Approved Emergency Life Preserver. Thousands are used by fishermen, duck hunters, boatmen and swimmers throughout the U. S. Keep Res-Q-Pak clipped to you whenever you go on, in, over or near water. Supports a fully clothed, 250-lb. man for hours. A child's grip will pop up the large two foot water-wing float — ready for instant emergency use.
